

Numbers Between

Work down the sheet and write two, three or four numbers that can go between the two given numbers.

First do this without using a number line or number square.

Then get a number line or a number square and check your answers. Give yourself a tick if you were correct.

2			6
3			7
5			9
4			11

0			5
1			6
8			12
6			15

7				14
5				10
8				16
9				15
13				19
11				18
12				23
15				24

12					19
14					25
17					24
15					27
18					26
