I can use an atlas to locate the continents.

What is a continent?

What is a country?

A continuous mass or expanse of land.

A nation with its own government.

How many continents can you name?

The seven continents

Can you locate all seven?

The countries of Europe

How many do you know?

Countries in Europe

Don't worry if you can't print the maps off.

You can just make a list of ten countries in Europe using your atlas.
