I can show the advantages and disadvantages of
independence.

What does independence mean?

Think of things you do that are independent.

E.g. Clean the hamster out.

Walk to school.

What are the positives of independence?

What are the negatives of independence?

Scenarios

Read each scenario and decide what advice you would give to a child your age. Imagine you are their parent.

Sam is 11 years old and has never been to the park on his own before. There is a busy road to cross and several teenagers gather there on an evening.

"I want to go to the park to see my friends after school."

Kathy is 11 years old. She wants to go on the train to Meadowhall and meet her friends.

Annie wants to buy some new clothes online.
