Adding fractions

Make sure you convert the denominators to the same number. Then show your working out.

- | | | |
|----------------------------------|----------------------------------|-----------------------------------|
| 1) $\frac{3}{5} + \frac{1}{5}$ | 2) $\frac{4}{17} + \frac{5}{17}$ | 3) $\frac{3}{20} + \frac{10}{20}$ |
| 4) $\frac{2}{7} + \frac{2}{14}$ | 5) $\frac{5}{6} + \frac{1}{30}$ | 6) $\frac{4}{8} + \frac{20}{48}$ |
| 7) $\frac{1}{10} + \frac{3}{90}$ | 8) $\frac{1}{3} + \frac{2}{5}$ | |
