

Hi Class 6

I have added some fun activities for this week from one of my favourite activity books, as it would be your final week of term. Enjoy.

The River Crossing puzzle.

Crossing the River

A long time ago, in a city far away, a small group of people gathered by the side of a river and wondered how they would cross it. The group consisted of a mother, father, two sons, two daughters, a prison guard, and a thief. There was a raft that could take people across the river, but there were many rules about who could board the raft:

- The raft could carry a maximum of two people at a time.
- The father could not stay with the daughters without their mother present.
- The mother could not stay with the sons without their father present.
- The thief could not stay with any family member if the prison guard wasn't there.
- Only the father, the mother, and the prison guard knew how to operate the raft. How did they all get across the river?
