

29th January 2021

I can explain how inventors influenced Victorian Britain.

Competition!

The Victorian times saw many new things being invented. On the next slide is a list of some Victorian inventors. Select one inventor from the list and carry out your own research into what they invented and about the main events in their life. Then create an A4 poster / information sheet about them.

Be creative, try to include illustrations, think about borders, text boxes etc. We are going to have a competition for the best four!

Famous British Victorian inventors

Isambard Kingdom Brunel

George Stephenson

Alexander Graham Bell

James Starley

Joseph Swan & Thomas Edison

John Boyd Dunlop

All posters need to be handed in or uploaded by
3.30pm TODAY!

The four winners will be announced on Monday morning
during the first online session.
