I can write an opening for a balanced
argument about zoos.

Explain what the argument is about

Show some opinions for

Show some against

Opening paragraph

Explain what your balanced argument is about.
Show some reasons for and some against, but
without going into too much detail.

Up-Level

People can't decide whether zoos are good or bad. Some people think they are good, because they help animals. Some people think they are bad, because they separate animals. I will show both sides in my writing.

An issue that often causes debate concerns zoos and whether or not they are appropriate and beneficial. There are lots of opinions surrounding this topic supporting reasons for and reasons against zoos. Some people consider them to be an excellent facility, as they help educate visitors of all ages and also help orphaned animals. However, some people believe that zoos should not be allowed; some animals get separated from their parents in order to be brought to a zoo. During this report, I will present reasons that support zoos and also reasons that are against zoos.
