

Friday 5th March 2021

W.A.L.T: I can use yes/no questions to separate information.

Success criteria: I can
separate items by
answering questions with
just yes or no.

How could we work out which shape I was describing?

Is it a 3d shape?

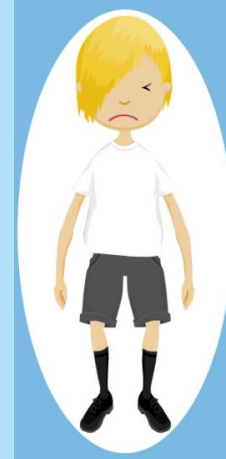

Does it have straight sides?

You may know this game.

You play it by working out the character by asking yes or no questions?

You can only ask questions which can be answered yes or no.

*If we chose
one of the
characters,
how could we
guess which
one it is?*

*We could ask questions about hair colour,
gender, whether they wear glasses, items
of clothing or even if they are smiling.*

Using the Purple Mash Avatar game, cut up the 12 images and then play a game of Guess Who? with someone.

Remember you can only ask questions with a yes/no answer.

Have fun!
