

Thursday 3rd March 2021
W.A.L.T: I can research specific
facts.

W.I.L.F

I can use texts and the internet to answer specific questions.

I only record the information I need.

I can underline or highlight key pieces of information.

We need to find out a little bit more information about the animal we have chosen.

Rather than just writing all the information we can find about a subject, we are just going to answer 3 questions.

Where is the animal's habitat?

Why is the animal important?

How can the problem that is causing the animals to be endangered solved?

<https://www.wwf.org.uk/learn/wildlife/snow-leopards#:~:text=Why%20snow%20leopard%20are%20so,include%20mountain%20sheep%20and%20goats.&text=So%20by%20protecting%20the%20snow,people%20who%20rely%20on%20it.>

Your task:

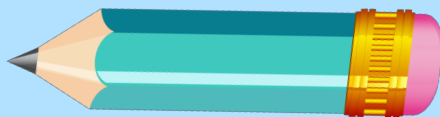

Research your chosen animal either using the texts provided or the internet.

You need to find out:

Where the animal lives.

Why the animal is important.

What we can do to prevent it becoming extinct.

Tomorrow, you will need your notes from your research.

Any questions please message me on Class Dojos!
