

# Monday

Step: Arrays

Write number sentences to match the array.

\_\_\_\_\_ x \_\_\_\_\_ and \_\_\_\_\_ x \_\_\_\_\_

Write number sentences to match the array.

$$\underline{\quad 2 \quad} \times \underline{\quad 3 \quad}$$

and

$$\underline{\quad 3 \quad} \times \underline{\quad 2 \quad}$$

Write number sentences to match the array.

\_\_\_\_\_ x \_\_\_\_\_ and \_\_\_\_\_ x \_\_\_\_\_

Write number sentences to match the array.

3 x 5 and 5 x 3

Write number sentences to match the array.

\_\_\_\_\_ x \_\_\_\_\_ and \_\_\_\_\_ x \_\_\_\_\_

Write number sentences to match the array.

4 x 10 and 10 x 4

Write number sentences to match the array.

\_\_\_\_\_ x \_\_\_\_\_ and \_\_\_\_\_ x \_\_\_\_\_

Write number sentences to match the array.

$$\underline{4} \times \underline{2}$$

and

$$\underline{2} \times \underline{4}$$

Write number sentences to match the array.

\_\_\_\_\_ x \_\_\_\_\_ and \_\_\_\_\_ x \_\_\_\_\_

Write number sentences to match the array.

6 x 5 and 5 x 6

Write number sentences to match the array.

\_\_\_\_\_ x \_\_\_\_\_ and \_\_\_\_\_ x \_\_\_\_\_

Write number sentences to match the array.

$$\underline{5} \times \underline{10}$$

and

$$\underline{10} \times \underline{5}$$

Draw an array that will show  $3 \times 2$ .

How else could you describe this array? \_\_\_\_\_ x \_\_\_\_\_

Draw an array that will show  $3 \times 2$ .

How else could you describe this array? 2 x 3

Draw an array that will show  $5 \times 3$ .

How else could you describe this array? \_\_\_\_\_ x \_\_\_\_\_

Draw an array that will show  $5 \times 3$ .

How else could you describe this array? 3 x 5

Match the arrays to their multiplication.

$$2 \times 8$$

$$4 \times 5$$

$$2 \times 10$$

Match the arrays to their multiplication.

$$2 \times 8$$

$$4 \times 5$$

$$2 \times 10$$

The array below shows  $3 \times 10$ .

True or false?  
Example how you know.

The array below shows  $3 \times 10$ .

True or false?  
Example how you know.

**False.**  
**The array shows  $3 \times 9$ .**

Part of the array is hidden.  
The total is less than 12.

What could the array be?  
List all possibilities as number sentences.

Part of the array is hidden.  
The total is less than 12.

What could the array be?  
List all possibilities as number sentences.

$$2 \times 3$$

$$2 \times 4$$

$$2 \times 5$$
