

Thursday, 8th February

Draw lines to share the bananas between the monkeys. Here is an example:

The monkeys can have _____ bananas each.

The monkeys can have _____ bananas each.

The monkeys can have _____ bananas each.

Clever Cats Challenge:

Oh no, these monkeys are arguing!

They have tried to share the bananas equally, but there is 1 left over.

Can you think of a way they could share the last banana fairly? Draw a picture or write a sentence to show your idea.
