

Friday, 22nd January

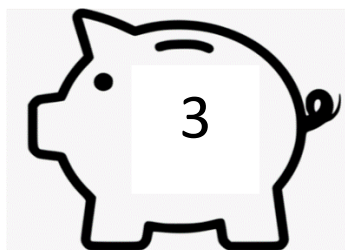

Count on from the number in the piggy back to find out how many pennies you have **altogether**. (Use the number line if you need to.)

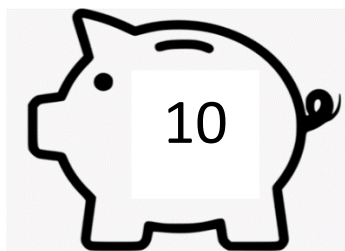

$$+ \text{ (one penny) } =$$

$$+ \text{ (two pennies) } =$$

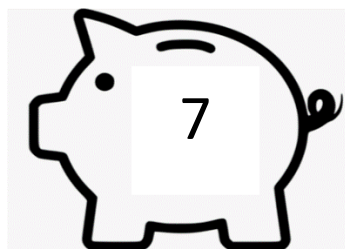

$$+ \text{ (four pennies) } =$$

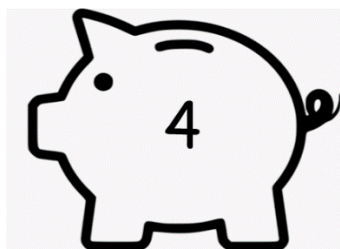

$$+ \text{ (five pennies) } =$$

Fantastic! Can you add the pennies in 2 piggy banks?
