

Monday

LG: I can use and explain addition strategies

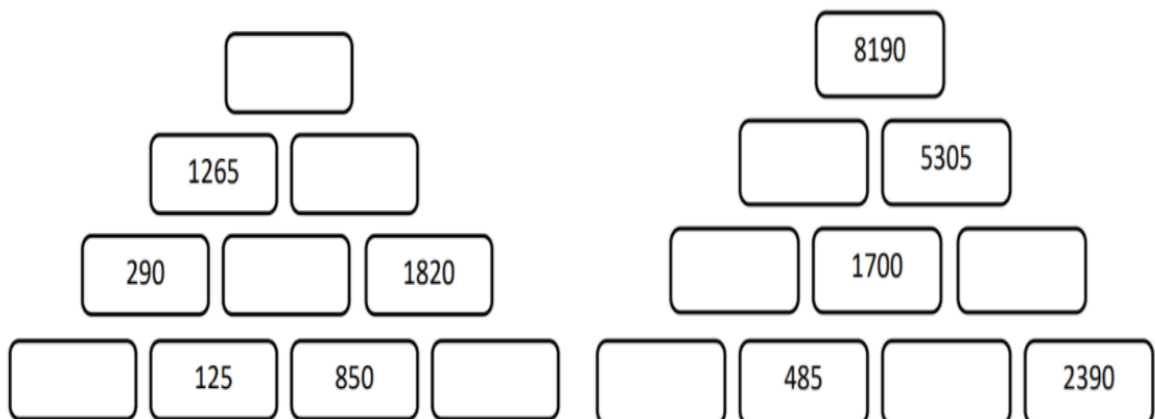

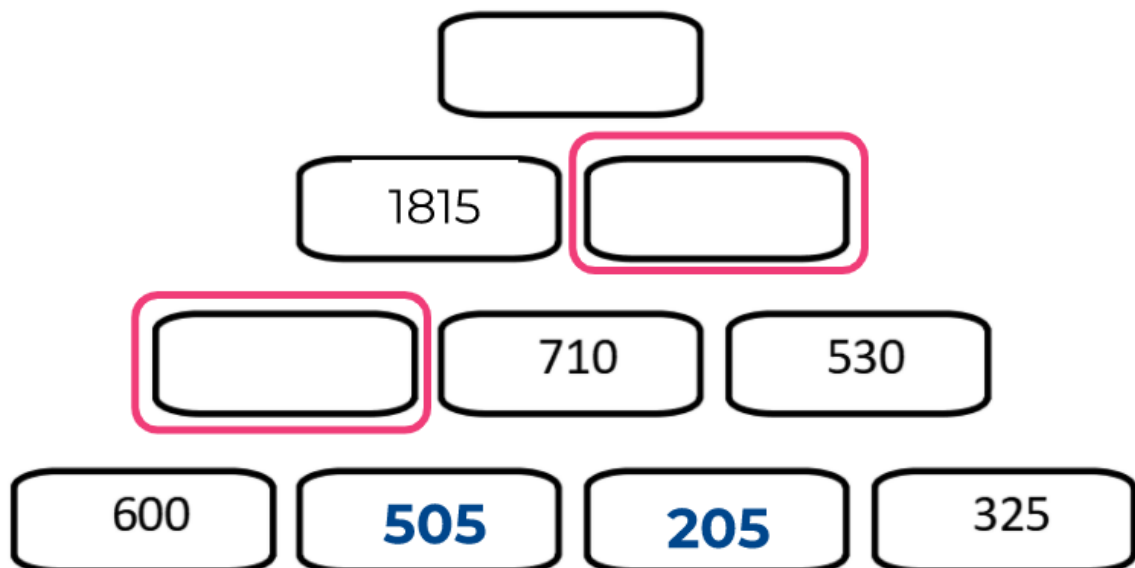

7	4	9	
	11		16
	6		
12	13	8	1

		24	19
	23	17	
25	12		
	21	11	

	20		14
15	22	21	
		16	
24			19

Tuesday

LG: I can use and explain addition and subtraction strategies

Wednesday

LG: I can add and subtract using multiples of 10, 100, 1000, 10000.

1. Use the 'derived facts' or 'Make 10' strategies to solve the following:
 - a) $17\ 000 + 6000 =$
 - b) $280\ 000 + 120\ 000 =$
 - c) $36\ 000 - 8000 =$
2. If I know that ' $15 + 4 = 19$ ', what else do I know?
3. 210 000 people attend an event over the weekend. 80 000 attended on Saturday. How many attended on Sunday?

Thursday

LG: I can add and subtract using rounding.

Complete each calculation below using the 'round and adjust' strategy:

1. $21\ 650 + 4980 =$
2. $35\ 000 - 9700 =$
3. $19\ 400 - 3950 =$
4. $40\ 500 + 9800 =$
5. $8020 + 3900 =$
6. $12\ 500 - 5997 =$
