

Hello Lucky Pennies!

I hope you have all managed to complete the home learning about 'The Lost Happy Endings'. It has been great to see some of the beautiful artwork that appeared on your portfolios. Keep up the good work! Have you been checking how many dojos you have got?

The Lost Happy Endings - Part 2

The theme for last week was based on the first part of a short story called 'The Lost Happy Endings.' This week we are going to look at the rest of the story.

I would recommend that you do one task from each subject per day. It is helpful to start with a reading task before doing the writing, maths and topic. That way you will have all of the information that you need from the book.

Maths

Again, there are options for maths this week.

1. Follow the link for White Rose Maths <https://whiterosemaths.com/homelearning/year-5/> and complete the worksheets shared on our class page on the website.
2. Complete activities 6-10 on 'Converting Units of Measure' from Oak National Academy <https://www.thenational.academy/online-classroom/year-5/maths#subjects>
3. Complete the activities created that link with our theme 'The Lost Happy Endings.' These activities recap skills you were taught at the start of the year.

You may want to do all of the maths activities and that is great! Please choose at least one option.

Well done to those of you that have been completing my quizzes too. Keep your eyes peeled for quiz number 5!

Love Miss Knox
