

Counting in Equal Groups

Counting in 2's, 5's or 10's, count the groups and complete the number sentences.

 $2 + 2 = \underline{\quad}$ 2 groups of 2 is $\underline{\quad}$	 $2 + 2 + 2 + 2 = \underline{\quad}$ 4 groups of 2 is $\underline{\quad}$
 $2 + 2 + 2 = \underline{\quad}$ 3 groups of 2 is $\underline{\quad}$	 $2 + 2 + 2 + 2 + 2 = \underline{\quad}$ 5 groups of 2 is $\underline{\quad}$
 $5 + 5 = \underline{\quad}$ 2 groups of 5 is $\underline{\quad}$	 $5 + 5 + 5 = \underline{\quad}$ 3 groups of 5 is $\underline{\quad}$
 $5 + 5 + 5 + 5 + 5 = \underline{\quad}$ 5 groups of 5 is $\underline{\quad}$	 $5 + 5 + 5 + 5 = \underline{\quad}$ 4 groups of 5 is $\underline{\quad}$
 $10 + 10 = \underline{\quad}$ 2 groups of 10 is $\underline{\quad}$	 $10 + 10 + 10 + 10 = \underline{\quad}$ 4 groups of 10 is $\underline{\quad}$
 $10 + 10 + 10 = \underline{\quad}$ 3 groups of 10 is $\underline{\quad}$	 $10 + 10 + 10 + 10 + 10 = \underline{\quad}$ 5 groups of 10 is $\underline{\quad}$

Equal Groups

Draw your own pictures and put them in groups to make the groups in the number sentences. Then complete the number sentence to say how many there is altogether.

3 groups of 2 is _____

6 groups of 2 is _____

4 groups of 2 is _____

3 groups of 5 is _____

5 groups of 5 is _____

2 groups of 10 is _____

4 groups of 10 is _____
