

Maths Tasks

I need your help. I'm good with words but not numbers. Can you help me work these out?

Each night Jub sends out the Happy Endings and every night children around the world hear them. Here is a table of some of the endings and how many times children have heard them -

Happy Ending	How many times has it been heard?
...and they all lived happily ever after!	1,567,309
...and they sailed off together into the sunset.	2,465,999
...and they all sat down to eat a lovely dinner with their lovely family.	534,980
...and the witch was banished from the kingdom.	1,999,990
...and he returned home where his mother was happily waiting for him.	346,008
...and everyone cheered for the new King and Queen of the land.	209,209

Task 1

1. Each ending has been viewed a certain amount of times. Jub isn't very good at understanding numbers but she can understand words. Can you write these numbers in words?

1,567,309	
2,465,999	
534,980	
1,999,990	
346,008	
209,209	

Task 2

1. Write the numbers in order from smallest to largest.

I need your help. I'm good with words but not numbers. Can you help me work these out?

--	--	--	--	--	--

2. Write the numbers in order from largest to smallest.

--	--	--	--	--	--

- ### 3. Which has been viewed the most?

--

4. What is the difference between the ending that has been viewed the most and the ending that has been viewed the least? Show your working.

Show
your
method

[illegible]

Task 3

I need your help. I'm good with words but not numbers. Can you help me work these out?

1. Every ending must be viewed 3 million times. Can you work out how many more times each ending needs to be viewed?

Happy Ending	Times it was heard	Show your working	Happy Ending	Times it was heard	Show your working
...and they all lived happily ever after!	1,567,309		...and the witch was banished from the kingdom.	1,999,990	
...and they sailed off together into the sunset.	2,465,999		...and he returned home where his mother was happily waiting for him.	346,008	
...and they all sat down to eat a lovely dinner with their lovely family.	534,980		...and everyone cheered for the new King and Queen of the land.	209,209	

Task 4 -Rounding

Jub has to send a report to the Sleep Council to giving approximate numbers of how many times the Happy Endings have been shared. Can you help her round these numbers?

I need your help. I'm good with words but not numbers. Can you help me work these out?

Happy Ending	Times it was heard	Round to the nearest hundred	Round to the nearest thousand	Round to the nearest ten thousand	Round to the nearest Hundred thousand
...and they all lived happily ever after!	1,567,309				
...and they sailed off together into the sunset.	2,465,999				
...and they all sat down to eat a lovely dinner with their lovely family.	534,980				
...and the witch was banished from the kingdom.	1,999,990				
...and he returned home where his mother was happily waiting for him.	346,008				
...and everyone cheered for the new King and Queen of the land.	209,209				

Task 5 -Doubling

Jub predicts that this time next year the amount of times the Happy Endings will have been heard will have doubled.

I need your help. I'm good with words but not numbers. Can you help me work these out?

Can you predict what the numbers will be?

Happy Ending	Times it was heard	Doubled (Show your working)
...and they all lived happily ever after!	1,567,309	
...and they sailed off together into the sunset.	2,465,999	
...and they all sat down to eat a lovely dinner with their lovely family.	534,980	
...and the witch was banished from the kingdom.	1,999,990	
...and he returned home where his mother was happily waiting for him.	346,008	
...and everyone cheered for the new King and Queen of the land.	209,209
