

Lucky Pennies,

Here we go... another week of home learning! Well done to those of you who have been uploading work to the Dojo portfolios. It is great for me to be able to see what you have all been up to. It is wonderful to see that as well as doing your school work, some of you have been learning other skills and helping around the house too.

The theme for this week is ANIMALS AND LIVING THINGS. Spring is a perfect time to think about what is growing and changing around us. I have been on some lovely walks recently and done a bit of nature spotting - sheep, lambs, cows, calves, horses are just some of the animals I have befriended. I also have noticed how beautiful the blossom is on the trees - driving up the school drive is a sea of different shades of pink - beautiful! As well as working your way through the activities, maybe you could see what you can spot the next time you are out getting your daily exercise? Here are a few pictures of what I have spotted.

Included in your home learning packs are 5 tasks for each subject. Try and do a task from each subject every day - one maths, one writing, one reading and one topic task. That should keep you busy from Monday to Friday.

Remember that there's lots to learn at home aside from school work - many of you have been cooking and cleaning but mostly you are learning to show kindness and tolerance for others. These are priceless skills.

I am very proud of you and I miss you all lots.

Love Miss Knox
