

Topic

We're going on a minibeast hunt...

Take a walk around a garden or other outside area with a grown-up. How many different minibeasts can you find? Here are some places you could look:

- Under plant pots and stones
- On leaves and bushes
- Around some plants and flowers

Take photos or draw pictures of any minibeasts that you find.

You can use the chart on the next page to tick off each minibeast you see. Remember not to touch the creatures you find and let them carry on with their important jobs.

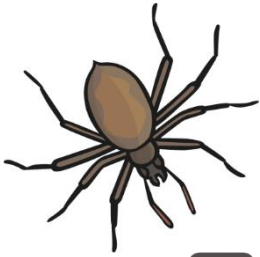

Happy hunting!

Minibeast Hunt

Tick the minibeasts that you have found!
