Spider's Web Challenge

Have a look at the pictures of the spiders' webs and talk about the shapes they make. Can you see the circular shapes, as well as the long 'rays' that come out from the middle?

Your challenge is to make a web big enough for a toy spider to fit on. Here are some possible ideas for materials you could use:

- string
- Wool
- Chalk
- Pencils or crayons
- Paper or card
- Shaving foam
- Paint
- Sticky tape

Be careful if you are using scissors and ask a grown-up if you need help.

Good luck and happy spinning!
