

Frottage

Equipment

You will need:

- A4 paper (plain or lined - whatever you have!)
- A sharp pencil

Optional:

- Colouring pencils
- A black felt marker

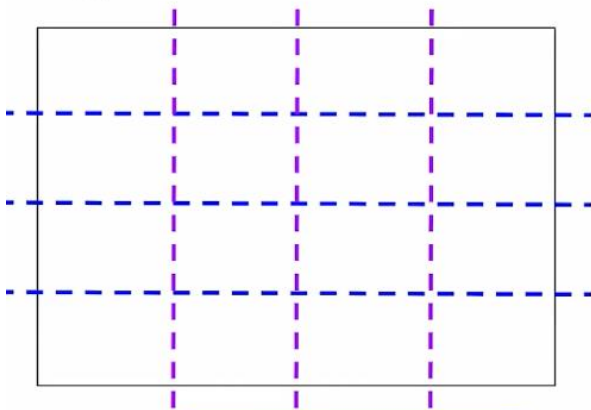

Instruction

Create a **frottage** patchwork from **rubblings** of **textured** objects which you find around your home.

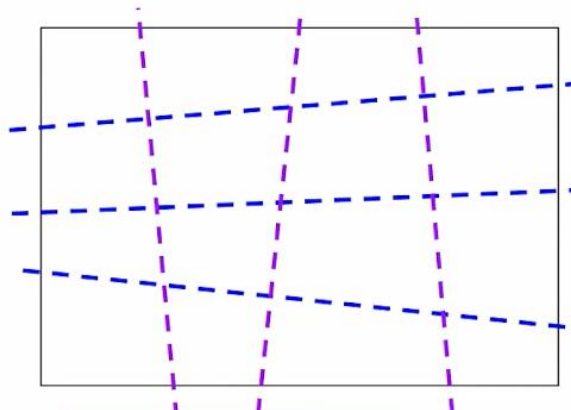

Fold your paper

Folding your paper into 16 sections: 2 options

Fold in half carefully lengthwise, then half again. Unfold. Repeat widthwise

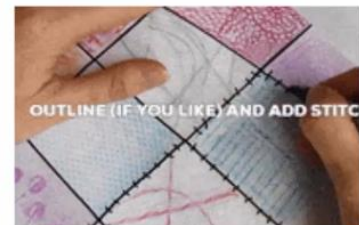

Fold roughly in half lengthwise, then fold each half roughly again. Unfold. Repeat widthwise.

Create your rubbings

If you find this too difficult with pencil, you can use a wax crayon. Use different colours for each square if you want yours to look like a patchwork quilt.

Add any finishing details

Use your creative judgement to decide when your piece is finished.

TOP TIP: Protect your work surface with a scrap page if you are working with marker.

Remember to send me your pictures!
