

18th June 2020

Hello Terrific Tigers,

Activities for the week beginning 22nd June

Mr Mac has been at it again! I hope you enjoy the videos that he makes and that it inspires you to do some good writing. This week, he's a crayon!!!!!! Check out the Week 7 Literacy lessons and see what he's up to -

<https://classroom.thenationalacademy/schedule-by-year/year-3/>

In Numeracy, I would like you to look at the Week 8 lessons on the Oak National Academy - <https://classroom.thenationalacademy/schedule-by-year/year-3/>

This continues to look at mass and then goes on to look at capacity. I'm also including a sheet explaining a practical maths investigation that you can do about capacity. We would normally do this in the classroom so I've included a pictures of us doing this.

I have attached the next chapters in the book that you are reading (Our Teachers are Superheroes) and some questions for you to answer. If you want to read the book on line you can find it at

<https://www.twinkl.co.uk/resource/t2-e-3943-our-teachers-are-superheroes-ebook>

I hope you had fun with our new science topic. Please continue with this and have a go at the Oak National Academy lesson in Week 8 -

<https://classroom.thenationalacademy/lessons/making-different-sounds/>

You can make musical instruments out of all sorts of things that you can find in your house. Why not try making some and post me a video of you playing them? I'm including some links to sites that might give you some ideas. Can you make 3 different instruments? One that you can strike, one that you can pluck and one that you can blow.

<https://www.youtube.com/watch?v=CkGwVO6KuMI>

<https://www.youtube.com/watch?v=oHFNZ4eyugc> (This also links to your maths work on reading scales as you will need to do some measuring)

<https://www.youtube.com/watch?v=weqDCGg0GYs> (cup song)

<https://www.youtube.com/watch?v=Y5kYLOb6i5I> (cup song tutorial)

Also, you could try filling some glasses or bottles with different amounts of water and gently striking them with a pen or pencil. What do you notice? This can also link to your maths work this week on capacity if you measure the amount of water that use.

Remember to send me pictures and videos of what you make

I've also come across a list of 100 things that you could do at home. Have a look at it and see how many of the things you have done. Are there any other ideas that you could have a go at? Perhaps you could keep a picture diary of the ones that you do.

Mrs Duck
