

3rd June 2020

Hello again,

Here are your home learning activities for the week beginning the 8th June.

I would like you to continue with the Oak National Academy Literacy Lessons. This week, they are exploring how to write about a villain. This will mean that at the end of this week you should have a good description of both your superhero and your villain. Lessons can be found at <https://www.thenational.academy/online-classroom/year-3#schedule>

Please access the Week 5 Literacy lessons.

In Numeracy, we will be starting a new topic on shape and again, I would like you to follow the lessons found on the Oak National Academy site (see above web address) but it is the Week 6 lessons that you need to look at. Some of this will be revision but there are also some new learning points.

I have attached the next chapters in the book that you are reading (Our Teachers are Superheroes) and some questions for you to answer. If you want to read the book on line you can find it at <https://www.twinkl.co.uk/resource/t2-e-3943-our-teachers-are-superheroes-ebook>

You have been doing really well with your science lessons on plants. This week please look at the Week 5 lesson that looks at how a plant transports water at <https://www.thenational.academy/year-3/foundation/to-explain-how-a-plant-transport-water-year-3-wk5-3>

Have a go at the experiment and send me pictures of your results. You can use white flowers instead of celery if you prefer. Carnations are good.

I've also included an extra couple of activities/challenges for you to have a go at if you want to.

Have fun and remember to send me pictures of your work.

Mrs Duck
