

Super Stars/ Year 2 Work for the week commencing 22nd June.

Dear Class 2

We hope you are still all well and we're really missing you. We've really loved seeing all the work you have been putting on Class DoJo. We've been really impressed with some of the pieces of writing you've put on your portfolios. You really are superstars!

Please continue to put any learning on there that you've been doing, it's great to see what you've all been up to. We have set a daily literacy task, maths task, reading task and topic related task for you to complete. This week you are going to find out about more about superheroes and who is a superhero.

Your parents are trying their best to look after you and your family as well as work themselves so we understand that they will try their best to support you in your work and help you complete the tasks. We appreciate this will vary according to everyone's individual circumstances. We hope you enjoy the completing the home learning as we've tried to make it fun!

Sending lots of love

Mrs Malpass and Mrs Jones

Maths

The focus for your maths work this week is to work on 2D and 3D shapes. Use the **week 8 tab** file on <https://whiterosemaths.com/homelearning/year-2/> to access the video files on White Rose Maths to complete each daily lesson.. You'll need to watch the videos and complete the related activity sheet which are attached. There are also additional videos and resources to support these sessions at BBC Bitesize 15 June <https://www.bbc.co.uk/bitesize/articles/zq6p7yc> and the remaining lessons for 16th- 19th June. You can also practise your 2d and 3D work by counting and sorting any shapes you can find at home. Practice counting how many vertices can you find? You could go on a shape trail where you look for as many different examples of possible of different shapes outside e.g. which shapes can you find on a house?

In addition, remember to practise all the quick recall maths facts you've learnt in school (2, 3, 5 and 10 timetables, doubles and halves of numbers to 20, number bond to 10 and 20 and numbers pairs to 100). The website below has a variety of games for different areas of maths. Click on the tabs at the top of the page to play games linked to the skill you want to practise.

<https://www.topmarks.co.uk/maths-games/5-7-years/times-tables>

Another really good website is <http://www.ictgames.com/mobilePage/> which has lots of maths and English games to play. Mrs Malpass and I know how much you enjoy Funky Mummy!

Literacy

This week you will continue with the activities from the Superheroes unit. Follow the link below to read the story and complete the related activities. We're really looking forward to seeing your pieces of writing.

<https://www.talk4writing.com/wp-content/uploads/2020/06/Y2-Superheroes.pdf>

The file is also included with this week's work.

Top tips when writing

- Use careful handwriting leads/joined
- Use careful spellings using your phonic knowledge/dictionary
- Use a clear capital letter, finger spaces and a full stop to punctuate your sentences.
- Try writing in multi-clause sentences using conjunctions.
- Try adding descriptive detail using adjectives, how adverbs (ly) and similes.
- Try to use commas in lists, exclamation marks and question marks correctly.

Topic

Your topic work this week is all about superheroes so it builds on your English superheroes unit. Maybe these are different superheroes from the ones you would expect. Maybe you have a superhero in your family.

Lesson 1: Writing Activity – design a superhero

Design your very own superhero! Use the space on the **Design a superhero worksheet** to draw them, thinking carefully about their costume and giving them a name.

Now write a description of your superhero, using the **text** in the **reading practice** as a model. You could include a physical description, a description of their powers and any rescues that they have completed.

Lesson 2: What makes me a superhero?

Discuss with your adult what skills and abilities you have that makes you a superhero. Think about things that you are good at and how you help people - this could be at home or school. Use the **What makes me a superhero? worksheet** to record what makes you a superhero; you should draw a picture of yourself in the centre (as a superhero if you wish!) and write sentences around the outside to describe yourself.

Lesson 3: Real-life superheroes

Look at the images showing the six emergency services available in the UK. Why might people who work for these services be considered superheroes?

Talk about what each emergency service does and talk with your adult about how to make an emergency call. Remember that they should only be called in a **REAL** emergency.

Now choose one emergency service and use the space on the worksheet to draw a picture and write why they are superheroes! Mrs Malpass and I are sure that you will have some superheroes in your family.

Lesson 4: Superhero moves

Use the **Superhero Moves cards** to move like a superhero. Can you link some of the moves together to create a short routine? Perhaps your adult could add some superhero music to accompany your heroic moves!

These links might give you some ideas! <https://www.youtube.com/watch?v=Py4fhx3Ct4>

<https://www.youtube.com/watch?v=6y3RMeH0jME>

Superhero mask

Make your own superhero mask using the **template** provided. For best results, print the template onto card, or use paper and glue it onto thin cardboard (such as a cereal box). You could use pens, pencils or paint to decorate it. You could also use fabric, foil or other things that you have available to decorate it. Add string to complete your mask.

Enjoy being a superhero for the day! We'd love to see photos of you as superheroes.

Lesson 5:

Do taller people jump further?

Our bodies are amazing and help us to do many things. This simple science investigation will help you to find out if taller people can jump further. You will have the opportunity to measure and record the results in a table.

A tape measure would be helpful for this task, or if you do not have one, string or markers to show how far people jump are fine.

To complete the investigation, think about who could jump the furthest in your family and write your prediction on the worksheet. Think about how you will make the test fair (everyone jumping from the same spot, is there a run up, how many jumps will each person have?).

Complete the results table, measuring the height of each person and distanced jumped. Once completed, look at the results and record your observations.

Extension Activities (optional):

- Make other parts for a superhero costume, such as a cape, badge or belt, and go on your own superhero adventures.
- Watch a superhero film together as a family.
- Draw and write about your favourite superheroes from comics, books and on screen.
- Find out about other people who might be considered a superhero (perhaps people from history).

Reading Tasks

- Lesson 1: Superhero Alicia
- Lesson 2: Superhero times
- Lesson 3: Superheroes and comic books
- Lesson 4: The Fearless Four
- Lesson 5: The Most Heroic Hero

Phonics

For those children still on the phonics programme it is important to continue to read your Read Write Inc books online on the website below. Read books you haven't read the same colour as the books sent home from school.

In addition there are lots of phonics resources as well as links to daily phonics lessons which you can watch.

<https://home.oxfordowl.co.uk/reading/reading-schemes-oxford-levels/read-write-inc-phonics-guide/>

Reading at home

It is really important you continue to read regularly to an adult at home. These can be stories of your own as well as stories online. Below is a link for free reading scheme which supports the scheme we follow in school. Click on age group - (6-7) then - all levels then -book bands and select the band you read as indicated on your reading book sent home.
