Make an Alien Spaceship

You will need:

2 paper plates

1 see-through plastic cup

2 small pieces of coloured card
(small enough to fit inside your cup)

Colouring pencils or felt-tip pens

Googly eyes (optional)

Glue

Method

1. Stick together the two pieces of card, leaving 2cm unglued at the bottom. Fold the unglued part to a 90° angle – this will stick to the paper plate later.
2. Draw an alien shape on one side of the card. Add details to your alien.
3. Cut around the alien shape.
4. Stick together your paper plates to create a saucer shape.
5. Use the bottom 2cm of card to stick your alien on top of the paper plates, using the fold to make the alien stand up.
6. Add glue to the rim of your plastic cup, place it over the alien and stick it to the paper plate.
7. Colour and decorate the paper plates to look like a spaceship.
